

ColleagueTM Family

Our Colleague family gives you the best in feature rich telephones. One of the best options that our new family offers is the ability to cover such a wide range of business and communication uses. Our family models are FCC registered as well as hearing aid and American Disability Act (ADA) compliant. Some of the common features that you can expect from all of the Colleague family are last number redial, message waiting lamp, handset volume control, data jack, desk-wall mount and flash button.

Your solution for one and two-line telephones
